PROFESSIONAL SUMMARY

Results-driven Business Development professional with hands-on experience leading B2B outbound sales, lead generation, and client acquisition for a healthcare AI company serving US clinics and hospitals. Combines a technical background with outbound execution across LinkedIn Sales Navigator, Apollo.io, Instantly, and HubSpot CRM to build structured pipelines from prospecting to closing. Also leads content, digital marketing, and hiring functions — bringing a broader growth and leadership lens beyond pure BD execution.

WORK EXPERIENCE

Senior Manager – Business Development & Growth | Techloset Solutions Sep 2025 – Present

- Led B2B outbound strategy for SynaCare (AI-first EHR), targeting clinic owners and hospital decision-makers across the US healthcare market
- Generated 100–300 qualified leads through combined LinkedIn Sales Navigator outreach, Apollo.io prospecting, and Instantly cold email campaigns
- Booked close to 20 discovery meetings with clinic owners, practice managers, and hospital decision-makers directly from outbound campaigns
- Grew targeted LinkedIn network by nearly 500 relevant connections among healthcare practice managers, directors of operations, and clinic owners
- Managed end-to-end HubSpot CRM pipeline — lead tracking, deal stages, and follow-up cadences
- Owned LinkedIn content, digital marketing, and social media strategy for company and CEO personal brand, driving inbound interest alongside outbound
- Led hiring for sales and marketing roles, writing job postings and screening candidates

Lead Management & LinkedIn Marketer | Innovrah Solutions

- Managed B2B lead generation and outreach via LinkedIn, executing targeted campaigns using Sales Navigator and personalized messaging
- Generated qualified leads through content and direct engagement; analyzed performance metrics to optimize conversions
- Maintained CRM pipelines with consistent follow-ups; collaborated with sales team to refine ICP and targeting

Full Stack Web Developer 2023 – 2025

- Developed web-based solutions, building a strong understanding of client requirements
- Collaborated with teams to deliver scalable, functional products
- Built technical knowledge that now supports solution-selling and client discussions in BD role
